## MAKE LANDFILL THE LAST CHOICE.

Visit [BanffZeroWasteTrail.ca](http://BanffZeroWasteTrail.ca) to learn how to shrink your waste, and sort it into the right bin, by using the What Goes Where digital tool.

By shrinking landfill waste, you help protect the park for future generations to enjoy.

# WHERE DOES YOUR WASTE END UP?

**FOOD**

Composted and turned into soil used on a farm in Alberta.

**PLASTIC**

Recycled in Canada to create products used for manufacturing within North America.

**METAL**

Recycled in Canada to create products like rebar, containers, and car parts.

**GLASS**

Recycled in Canada to create products like new bottles and jars.

**PAPER**

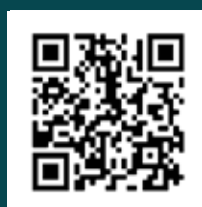

Recycled in Canada to create products like tissue paper and newspaper.

**LANDFILL WASTE**

Buried in an Alberta landfill, where materials do not decompose. Creates harmful methane emissions which are over 30 times more powerful than carbon dioxide emissions.

**GREAT THINGS HAPPEN WHEN YOU SHRINK YOUR LANDFILL WASTE.**
